Anyone interested in a challenging career with excellent pay needs to explore the Postal Service job market. The average annual salary for employees, including benefits, is \$66,929 a year. Professional and administrative employees earn up to \$110,329 per year.

The Postal Service shed its arcane mass testing program for entry-level jobs and instituted an automated online hiring and assessment process in 2009. Entrance tests are still required. However, you now apply for specific job vacancies and complete an initial assessment, including exams, online when you apply. This is the only book available that describes this new process and features a comprehensive 473 Major Entry-Level Jobs exam study guide for the new format, with helpful test-taking strategies to improve test scores.

Those considering a job with the Postal Service will find Damp's book filled with useful and up-to-date information. This book provides related Civil Service job options and online updates at <http://postalwork.net>, prepares the reader for interviews, and covers ALL occupations from professional and administrative to mail carrier, maintenance, and clerical.
